# PENGUIN PLAN

- 10% DISCOUNT ON ALL REPAIRS
- \$150 OFF THE PRICE OFF A COMPLETE SYSTEM REPLACEMENT
- PRIORITY EMERGENCY SERVICE—Jump ahead of the line!
- PREVENTING MOST BREAKDOWNS BEFORE THEY OCCUR—most break downs are predictable and can be avoided with regular maintenance.
- TWO PRECISION CHECKS AND PROFESSIONAL CLEANINGS PER YEAR
- MEMBERSHIPS CAN BE CANCELLED AT ANY TIME FOR ANY REASON. Please see reverse side for additional terms and conditions.

- |  |  |
|--|--|
| 1. Check operating pressures                       | 8. Check for any mold in or around air handler     |
| 2. Visually check for refrigerant leaks            | 9. Lubricate all moving parts                      |
| 3. Check voltages and amps to motors               | 10. Check thermostat                               |
| 4. Check crankcase heater if applicable            | 11. Check wiring and connections                   |
| 5. Check air temp across evaporator coil           | 12. Check and/or replace customer supplied filters |
| 6. Brush clean surface of evaporator coil          | 13. Clear condensation drain line                  |
| 7. Check for proper air flow across condenser coil | <b>14. Apply Rust Inhibitor</b>                    |

The Pro-Treat pan strip helps prevent algae, slime, mildew, and fungi that can build up and potentially prevent your system from draining properly. For best results have our technician install a pan strip during each Cooling Service for \$35.00 (originally \$55)

## Additional Services:

### Mini-Split Inspection

Have a Mini-split? We can maintain that too!

- Inspect Blower Wheel & Evap Coil
- Clean Filter
- Clean Condenser Coil
- Checking pressures
- Check voltages and amps
- Check Drain

### Duct Cleaning

Duct cleanings can remove airborne contaminants such as bacteria, fungus, mold spores, pet dander & pollen which may alleviate allergies and asthma.

### Crawspace Inspection

Don't forget your Crawspace!

- Service Dehumidifier
- Change Dehumidifier Filter
- Check for Standing water
- Check for sagging insulation
- Check humidity level in crawspace
- Check for damage to encapsulation liner
